# 1 – Audit Overview

## 1.1 - Introduction

**1.1.1** Housing Land Audits (HLAs) are the established method of monitoring housing land supply for Local Authorities based in Scotland. HLA Audits are undertaken annually from the 1<sup>st</sup> of April to the 31<sup>st</sup> of March the following year and provide data from that time on land available for home building for four or more units. The Audit also indicates the progress of sites through the planning process and gives information on housing completions. It is produced in consultation with Homes for Scotland (HfS), the umbrella organisation that represents the house building industry, as well as other interested parties the Council will continue to work with them to ensure the delivery of housing in Midlothian.

**1.1.2** HLA 2024 comprises the assessment of the seven following schedules used to monitor the housing land supply in Midlothian on the 31<sup>st</sup> of March 2024. Consideration of all schedules is essential in obtaining an accurate idea of current and future housing land supply.

**Table 1: Schedule Breakdown.**

Schedules	Contents
Summary	An overview on: The supply and status of sites, completion rates and future programming.
Main Schedule	Information on and indicative programming for effective sites in the supply.
Completions & Demolitions	Numbers of both market and affordable housing units completed in 2023/24 and recent years, where those completions were, and the number of demolitions across Midlothian.
Constrained Sites	Sites which are not effective and have obstacles preventing their development.
Safeguarded Sites	Sites associated with housing allocations which have potential for further expansion in the medium to longer term and which could be brought forward through the next development plan, if required.
Site Notes	Additional information on sites, including their planning application and building warrant references.
Pending Large Windfall Applications <sup>1</sup>	Details of outstanding housing applications of four or more units for non-allocated sites.

**1.1.3** The schedules in table 1 include housing developments of four or more units (including new housing, redevelopment, conversion and sub-division). Developments consisting of 3 or less units (smaller sites) are shown as an aggregation for each settlement and are combined with allocated and windfall sites to provide a summary of the housing situation for each settlement. These in turn are aggregated to the Housing Market Area (HMA) level. There are two HMAs in Midlothian and their boundaries and the settlements they contain are shown in figure 1 on the next page. A map of the sites within the Audit is included at the back of this document and an online version with interactive site information is also available online - [Housing Land Audit online map](#).

<sup>1</sup> Windfall sites are housing developments on land that was not allocated in current or former Development Plans. They are often smaller sites on brownfield land.

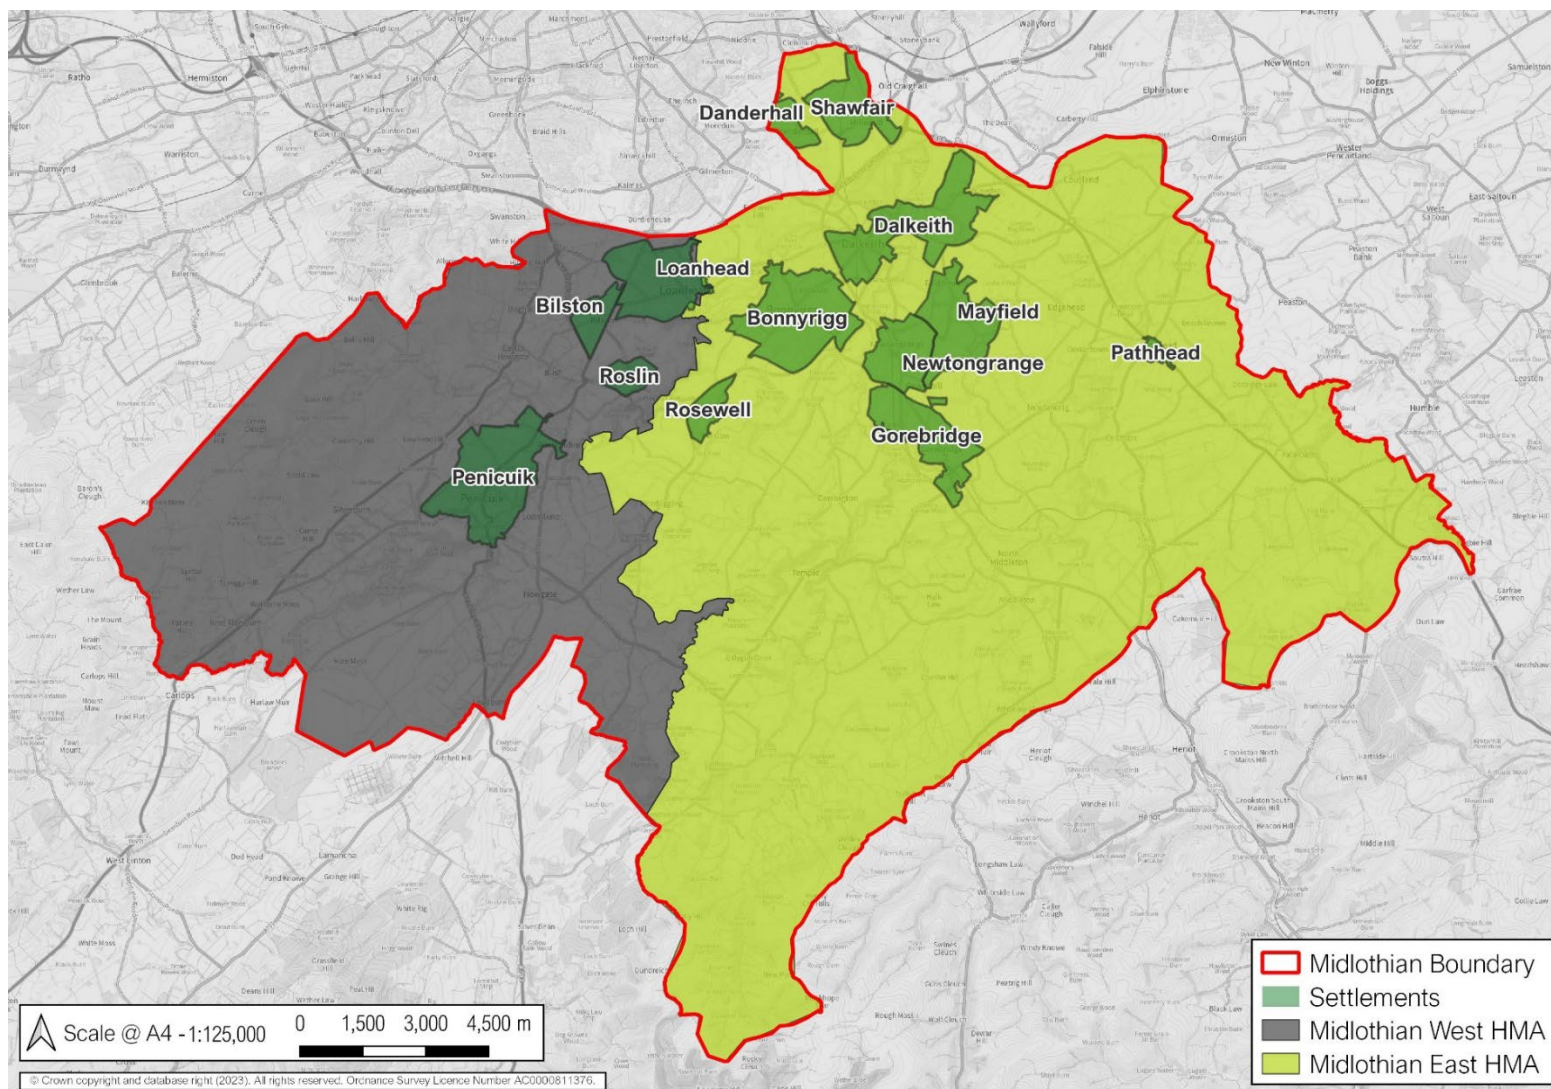

Figure 1: Midlothian’s Housing Market Areas and the main settlements within them.

## 1.2 – Abbreviations

Table 2: HLA 2024 Abbreviations.

Abbreviation	Description
Aff'd.	Affordable housing
B/Brf.	Brownfield land (previously developed land)
C	Site with planning consent
DPEA	Planning and Environmental Appeals Division of the Scottish Government
DPP/FUL/MSC	Detailed/Full Planning Permission
G/Grf.	Greenfield land (previously undeveloped land)
ha	Area in hectares (1 ha = 10,000m <sup>2</sup> , or 100m x 100m)
HfS	Homes for Scotland
HLA	Housing Land Audit
HMA	Housing Market Area
LDP	Local Development Plan
LHLR	Local Housing Land Requirement
LRB	Local Review Body
MATHLR	Minimum All Tenure Housing Land Requirement
MC	Site that is minded to be consented planning permission but the legal agreement for developer's financial contributions to infrastructure is still to be finalised
MLDP	Midlothian Local Development Plan (2017)
MLP 2003	2003 Midlothian Local Plan
MLP 2008	2008 Midlothian Local Plan
NC	Site with no planning consent
NPF4	National Planning Framework 4
PAC	Pre-Application Consultation
PPP/OUT	Planning Permission in Principle/Outline Planning Permission
RoS	Registers of Scotland
SC	Safeguarded Capacity
SHIP	Strategic Housing Investment Plan (Midlothian Council's plan for the delivery of affordable housing)
SLP	Shawfair Local Plan (2003)
UC	Site under construction

## 1.3 – Planning Policy Context

**1.3.1** The context of the previous Audit was adapted to incorporate the adoption of National Planning Framework 4 (NPF4) in February 2023 and the introduction of the Town and Country Planning (Development Planning) (Scotland) Regulations 2023 and subsequent guidance notes in May 2023. Whilst the context of this current Audit has remained relatively unchanged from the previous, it is anticipated the context will change for future HLAs to reflect the guidance from the Scottish Government on HLAs that is currently being updated and will replace PAN/2010 ('Affordable Housing and Housing Land Audits'). HfS's updated Procedure Notes will also be finalised following the publication of Scottish Governments updated guidance.

**1.3.2** NPF4 identifies a Minimum All Tenure Housing Land Requirement (MATHLR), which is the minimum amount of land, expressed in housing units, that is to be provided by each planning authority in Scotland in their next Local Development Plan (LDP). These LDPs will cover a 10 year period. In Midlothian, the MATHLR figure is 8,850, or 885 units per year. Local Authorities must identify a Local Housing Land Requirement (LHLR) in their LDP that exceeds their MATHLR. The agreed LHLR figure for Midlothian is 8,851 and was confirmed by the Scottish Government Reporter through the Directorate of Planning and Environmental Appeal's (DPEA) 'Gate Check' process on the 19<sup>th</sup> of September 2024.

**1.3.3** Midlothian's current Local Development Plan (LDP) was adopted in 2017, with an Action Programme approved in early 2018 and a further update of the latter in 2020. It highlighted the progress made with implementing the LDP's development strategy in the two years since adoption, the key changes in that period and emerging issues looking forward to the next review of the Plan. 'Delivery Programmes' will replace Action Programmes and Midlothian Council will be producing by 31 March 2025 one to replace the 2020 Action programme. A further Delivery Programme will be produced shortly after the adoption of LDP2 (currently expected in late 2026). This will set out how the Council propose to implement its LDP and it must establish a deliverable 'housing land pipeline' for the LHLR. The purpose of the pipeline is to provide a transparent view of the phasing of housing allocations so that interventions, including infrastructure, that enable delivery can be planned. The annual HLA, and its programming in particular, will monitor the delivery of housing land to inform the pipeline and the actions to be taken in the Delivery Programme.

**1.3.4** The programming in the Main Schedule of the Audit covers a 10 year period to reflect the requirement of NPF4 that LDPs should identify deliverable land to meet a LHLR that must cover a decade. Programming is divided into three phases which mirror the definitions of NPF4 Policy 16 and paragraph 222 of the May 2023 Scottish Government Local Development Planning Guidance:

- Short-term sites – where the first homes are to be completed in years one to three of the LDP 10 year period, including sites with full planning permission;
- Medium-term sites – where the first homes are to be completed in years four to six of the LDP 10 year, including sites with planning permission in principle and allocations supported by masterplans, development briefs or equivalent; and
- Long-term sites – where the first homes are to be completed in years seven to ten of the LDP 10 year period, in locations that align with the spatial strategy of the plan and have a pathway to delivery identified in the Delivery Programme.

**1.3.5** Programming in the Main Schedule will continue to provide an aggregate figure of units to be completed beyond the short, medium and long term since NPF4 Policy 16 also states

that areas that may be suitable for new homes beyond 10 years are also to be identified in LDPs.

## 1.4 – Methodology

**1.4.1** The methodology of how Midlothian's HLA is completed is influenced by several sources including rolling over procedures from previous Audits where those procedures have been of value, reflections and discussions on them throughout the year, HfS Procedure Notes and PAN/2010. The methodology may well change going forward due to the forthcoming guidance on HLAs from the Scottish Government. For the time being, however, the following paragraphs detail the steps taken in completing Midlothian's latest HLA and have remained almost unchanged from the previous Audit.

**1.4.2** The status of sites in the Audit is determined by reviewing weekly lists of applications received and determined by Midlothian Council, the outcomes of its Planning Committee and Local Review Body (LRB) as well as checking for the submission and approval of building warrants and notifications of the commencement of developments to establish when site activities have begun.

**1.4.3** Housing completions are determined by cross-checking several forms of data:

- In the first instance building warrant records in the Council's 'Uniform' database are reviewed for the submission and acceptance of housing completion certificates under the Building (Scotland) Act 2003;
- Effective dates of the apportioning of Council Tax bands to addresses listed at the Scottish Assessors Association website and provided by the Lothian Valuation Joint Board; and
- Visits to all sites of four or more units that have had construction activity in the current Audit year to mark off occupied units on site plans. This is determined by the presence of one or more signs of occupant activity, such as parked vehicles, 'curtain counts,' the maintenance of gardens or grounds etc.

**1.4.4** Programming assumptions are a snap shot in time from the base date of the HLA. As site programming entails predicting future events, it can only represent the most accurate estimate as is possible at the time of writing. Many data sources are utilised to maximise its reliability:

- Visits to all large sites and recording the number of units under construction, particularly those nearing completion;
- Inspection of site plans so that programming takes into account the house types in question (detached, semi-detached, flats etc.), as this will influence their build time;
- Inspection of phasing plans submitted by developers;
- Taking into account past annual completions on sites that have delivered units in previous years;
- Visiting house-builders websites and on site notice boards to note news on which plots or phases have been released for sale, reserved or sold;
- In the case of sites in the Shawfair Area, reviewing the annual Shawfair Phasing Plan<sup>2</sup>;
- Taking into account HfS guidance on realistic default assumptions for completions as outlined in their 'Housing Land Audits: Homes for Scotland Procedures' document;
- For social housing sites, following programming outlined in the latest Council Strategic Housing Investment Plan (SHIP report); and
- Receiving further feedback on programming via the various engagement activities outlined below.

---

<sup>2</sup> This is a requirement under condition 3 of application 17/00650/S42 to amend the approved Shawfair Masterplan.

**1.4.5** Engagement during the production of the HLA also helps to ensure that the programming (and the other information) it contains is as accurate as possible. In practice this entails:

- Reviewing the communications between site developers/owners and Council Planning Officers to determine the progress and status of sites;
- Requests for further information on site statuses from Council Planning Officers where needed;
- Contacting developers directly to get an update on particular sites where needed;
- Distribution of the HLA amongst key internal Council services and key external agencies for their comment;
- Review by other Planning staff and reporting the Audit to Planning Committee before its publication;
- Consultation with HfS who then distribute the Audit to their members via the South East Scotland Home Builders' Committee for comment and revision of figures; and
- Feedback and queries received after publication of the HLA on the Council website.

**1.4.6** The HLA contains a table of 'Constrained Sites', these being defined as sites in the supply which are not effective and have obstacles preventing their development. This follows NPF4's position that housing land is only deliverable if it 'is free from constraints or there is a commitment to overcome constraints'. Following PAN/2010 (and as also outlined in HfS's former Procedure Notes on HLAs) these constraints are ownership, physical constraints (e.g. ground stability or flood risk), contamination, marketability and infrastructure.

**1.4.7** Entries in the Constrained Sites table must meet these requirements and this is determined via a review of recent correspondence and information regarding the site, its ownership and planning status and whether it is being marketed. Such sites are also visited where necessary to confirm their appropriateness for inclusion in the Constrained Sites table.

**1.4.8** Smaller sites within the HLA 2024 continue to be defined as 3 units or fewer. Smaller sites were previously regarded as four units or fewer, however this was altered for the previous Audit in response to HfS's HLA Procedure Notes and the Scottish Government's Local Development Planning Guidance stating that sites of four or more units can be used to meet the Local Housing Land Requirement.

**1.4.9** Data on small housing sites is recorded in a spreadsheet where units are grouped according to their planning and building warrant status. These statuses can fall into one of two categories which were used to create a new methodology for estimating programming. Units under category one (has full planning consent) were deemed to deliver their units over the first one to seven years. Units under category two (has a pending planning application or PPP consent only) are expected to deliver their units in programming years eight to ten.

**Table 3: Status of small sites and the programming of their units.**

Small Site Status Categories	Expected Delivery of Units
1) Has full planning consent	Years 1 - 7 (24/25 – 30/31)
2) Has a pending planning application or PPP consent only	Years 8 - 10 (31/32 and 33/34)

**1.4.10** HfS suggests that the programming for small sites should be based on recorded completions over the past five years, while the Scottish Government's HLA Issues Paper

raises this as one possible approach (of several). The actual average number of completions on small sites in Midlothian over the past five years is fourteen units per year and the methodology shown in table 3 would see the delivery of approximately 15 units per year for years one to seven in the Main Schedule's programming. The difference between these figures represents a reliable method and the Council will utilise this method for this year's HLA. This formula also allows for the fact that new units will enter the supply as further applications come forward and proceed through the planning systems.

# Part 2 – Housing Supply Commentary

## 2 - Housing Supply Commentary

### 2.1 – Summary of Supply and Sites

**2.1.1** HLA 2024 identifies a total established housing land supply of 10,863 remaining units and an effective supply (i.e. excluding constrained sites) of 9,783 remaining units. Safeguarded sites can contribute a further 600 units when called upon<sup>3</sup>.

**2.1.2** NPF4 and the Local Development Planning Guidance requires housing land supplies to be viewed by the way of a pipeline of sites that will be built across the short, medium and long terms and is illustrated in table 3. It shows that Midlothian’s housing supply has the strength of being relatively balanced across the different periods of the pipeline. Further sites will also enter the supply in future Audits as windfall sites are consented<sup>4</sup>.

**Table 4: Breakdown of Main Schedule housing supply programming.**

Housing Land Pipeline Period	Timeframe	Units Programmed	Portion of Effective Supply
Short Term	Next 3 years - 2024/25, 2025/26, 2026/27	2,512	26%
Medium Term	Years 4 to 6 - 2027/28, 2028/29, 2029/30	2,193	22%
Long Term	Years 7 to 10 – 2030/31 to 2033/34	2,163	22%
Remaining	Post 10 years – 2034 onwards	2,915	30%

<sup>3</sup> This figure excludes the safeguarded portion of Newton Farm near Danderhall (site Hs1 SC), which is already in the Main Schedule as the application for its development is minded to be consented. This means it already comprises part of the effective supply. It also includes the safeguarded portion of Hopefield Farm 2 (site Hs12 SC), for the similar reasons.

<sup>4</sup> The Pending Large Windfall Applications table provides details on where these developments may come from. The weekly and monthly lists of applications will record proposals for projects not yet brought forward. A link to this is provided in section 4.

**2.1.3** HLA 2024 details 69 sites in its Main Schedule and a further 16 that were completed in the Audit year. Of these 85 in total, 62 are on greenfield locations while the remaining 23 are brownfield sites. The latter source are typically smaller, so when looking at this split by site area, greenfield account for 90% of the total area.

**2.1.4** Figures two and three below provide a further breakdown of the sites by planning application status and by land supply source. The former shows that Midlothian’s housing land supply is composed of sites that are either under construction or that have some form of planning consent.

**Figure 2: Breakdown of HLA 2024 sites by planning status.**

Note: breakdown is by the number of sites rather than their capacity.

**2.1.5** Figure 3 shows that Midlothian’s housing land supply is comprised of sites from a range of land supply sources, from those allocated in previous Development Plans to recently consented windfall applications. The category of ‘other sites’ includes those allocated prior to the 2003 MLP and sites that are composed of land from a mix of supply sources

**Figure 3: Breakdown of HLA 2024 sites by land supply source.**

Note: breakdown is by the number of sites rather than their capacity.

**2.1.6** The Midlothian housing market is characterised by the presence of a range of house builders. Table 3 provides a summary of its major-players alongside the number of sites they are taking forward and the unit capacities of these sites. It is also worth noting that a number of other site developers/promoters and smaller house builders also operate within Midlothian. These are excluded from the table below for conciseness, but full details are provided in the Main Schedule of the Audit. It is notable that builders who are either new to Midlothian or who have not operated here for some time are now active in the area. Examples include Muir Homes in Pathhead, Robertson Homes at Rosslynlee and Lovell Homes in Mayfield/Newtongrange. This trend points to Midlothian’s housing supply being more diverse and resilient than in the past, when a smaller number of builders delivered units in the area.

**Table 5: Breakdown of selected Main Schedule sites by developer.**

Note: 'Number of Units' represents the total site capacity (i.e. it includes units already built).

Developer	Number of Sites	Number of Units	Notes
Avant Homes	2	368	
Barratt Homes	2	700	
Bellway Homes	3	635	
CALA	3	780	620 of these units are at the Hs1 site at Newton Farm, near Danderhall.
Dandara Homes	3	242	
David Wilson Homes	4	314	Three of their sites are parts of the Hs19 development at Roslin.
Midlothian Council / Cruden Homes	8	404	This includes Cruden/Hart Builders (who develop some affordable housing sites for the Council) and other Midlothian Council sites.
Miller Homes	1	430	
Persimmon Homes	1	96	
Robertson Homes	1	121	
Springfield	4	1,357	Springfield are at two locations – Bonnyrigg and Mayfield, the latter accounting for the majority of these units. Springfield now incorporates both Walker Homes and Mactaggart and Mickel.
Taylor Wimpey	4	1,771	

## 2.2 – Sites Entering and Exiting the Audit's Main Schedule

**2.2.1** There are four new sites entering the Main Schedule of this year's Audit with a total combined capacity of 25 units (table 6). The Land South of Hilltown House site in the Shawfair Area and Barley Dean in Midlothian East were previously constrained but have been moved from that category into the effective supply (Main Schedule). The other two sites are new smaller windfall sites.

**Table 6: New sites in HLA 2024's Main Schedule.**

Site Name (& Reference)	Settlement	Site Capacity (Units)
Barley Dean (2023VR1)	Villages/rural (West HMA)	5
Glenarch Lodge (2023DK1)	Dalkeith	6
Land South of Hilltown House (2017SA1)	Shawfair Area	4
Land 100M South West of Newlandburn House (2024VR1)	Villages/rural (East HMA)	10
	<b>Total</b>	<b>25</b>

**2.2.2** One of the three most significant weaknesses identified with the current HLA process as identified by HfS is the ability to identify sites removed since the previous HLA. To Address this matter, the Council will continue to provide details of sites removed from the Main Schedule due to the site being fully completed (table 7) and detail sites that have been moved for other reasons (table 8). In this current Audit, the sites in table 8 have been moved to the Constrained Sites schedule.

**Table 7: Sites removed from the HLA's Main Schedule due to being fully completed in 2023/24.**

Site Name (& Reference)	Settlement	Site Capacity (Units)
Seafield Road Area A (Hs16(AreaA))	Roslin/Bilston	191
Seafield Moor Road Area A (h55(AreaA))	Roslin/Bilston	190
Belwood Avant (at NW Penicuik) (h58(AreaA2))	Penicuik	87
Nursery East (at NW Penicuik) (h58(AreaB3))	Penicuik	57
Deanburn (at NW Penicuik) (h58(AreaE))	Penicuik	91
Dalhousie Mains Area B (Hs10(AreaB))	Bonnyrigg/Lasswade	78
Dalhousie Mains Area A (Hs10(AreaA))	Bonnyrigg/Lasswade	27
Lasswade High Street (2020BL1)	Bonnyrigg/Lasswade	8
Cockpen Terrace (2021BL4)	Bonnyrigg/Lasswade	16
Burnbrae Road (2021BL1)	Bonnyrigg/Lasswade	20
Cowden Cleugh (h46)	Dalkeith	109
Former Dalkeith High School (h12)	Dalkeith	92
North Gorebridge Area A (h36(AreaA))	Gorebridge	176
Shawfair (Block O) (h43(O))	Shawfair Area	83
South Danderhall (Plots C & D) (h45(C&D))	Shawfair Area	235
Former Cousland Primary School, Cousland (2018VR4)	Villages/rural (East HMA)	6
	<b>Total</b>	<b>1466*</b>

Note: the total figure of 1466\* is the capacity of all the units across all sites that were fully completed by 31/03/2024, regardless of whether these units were completed in the current Audit year or prior. This is why the total figure differs from the total completions recorded in HLA 2024.

**Table 8: Sites removed from the HLA's Main Schedule that are not complete.**

Site Name (& Reference)	Settlement	Site Capacity (Units)
Kippielaw Hatchery - (2022DK1)	Villages/rural (East HMA)	5
Redheugh West (Phase 2) – (Hs7*)	Gorebridge	400
	<b>Total</b>	<b>405</b>

## 2.3 – Constrained Sites

**2.3.1** Constrained sites contribute to the house land supply within Midlothian but are not considered effective as development cannot be carried out without some form of remedial action. If the issues of the constrained site are resolved, the site can be considered effective and will move back to the Main Schedule. Sites can also be moved from the Main Schedule to the constrained site list - Table 8 is an example of this. HLA 2024 identifies 17 constrained sites with a total of 1080 units. These sites are composed of two types:

- ‘Additional Housing Development Opportunity’ sites, which are locations identified in the current LDP for new homes but that have development uncertainties meaning their contribution to the effective supply is not guaranteed<sup>5</sup>; and
- Other constrained sites from the current or previous Local Plans, or stalled windfall approvals.

## 2.4 – Completions and Demolitions

**2.4.1** In 2023/24 there were 821 housing units completed throughout Midlothian. This figure is 10% lower than last year’s record high of 910 completions, however when compared with the five year rolling average of 717 units from the period 2018/19 to 2022/23, this is an increase of 14% on completions.

Figure 4: Housing completions in Midlothian, from 2014/15 to present.

**2.4.2** The previous audit anticipated a delivery of 810 completions for the current Audit year with this falling close to the actual figure of 821 completions for HLA 2024. The Council will continue to follow on with the steps outlined in section 1.4 of this Audit to provide programmed numbers as accurately as can be. Programmed numbers are not guaranteed to always reflect as closely to the actual figure as predicated as a number of factors that cannot be predicated can arise throughout the next Audit year.

**2.4.3** The expectation of NPF4 is that MLDP2 will provide land to meet the minimum units expected by the MATHLR target and the annual HLA will monitor the delivery of housing land to inform the pipeline and the actions to be taken in LDP Delivery. Completions in Midlothian of 821 in 2023/24 fall slightly less of the yearly target by 64 units.

**2.4.4** HLA 2024 identifies a significant increase in the number of affordable homes completed within 2023/24 with a 56% increase from 2022/23. Table 9 below compares figures of social housing completions to those reported in previous Audits over the last five years. It is clear that the number of affordable housing completions have reached a record high when compared with previous years. The Council’s SHIP provides more detail on the delivery of affordable homes in Midlothian and a link to it can be found in section 4.

<sup>5</sup> See MLDP policy STRAT 4.

Table 9: Completions of affordable housing units in Midlothian.

HLA Year	Affordable Units Completed	Total Units Completed	% of Completions That Were Affordable
2024	321	821	39%
2023	229	910	25%
2022	182	818	22%
2021	119	564	21%
2020	70	611	11%

**2.4.5** The distribution of completions across Midlothian’s settlements is presented in figure 5 below. This shows that the area of Roslin/Bilston, continues to experience the most growth. It is the build-out of sites across Midlothian that are a key factor in seeing an elevated level of completions in the last three years by a number of different developers including Taylor Wimpey and Barratt in Bilston, David Wilson Homes in Roslin, Bellway Homes in Bonnyrigg and a number of developers at the North West Penicuik sites.

**2.4.6** Shawfair was formerly Midlothian’s fastest growing settlement in both 2019/20 and 2020/21, with it delivering around 130 units in each of those years. These numbers are considerably less than those now being built in areas such as Roslin/Bilston. Completions for 2023/24 at Shawfair have dipped slightly as predicated in the previous HLA. However it is expected this will increase for HLA 2025 with Mactaggart and Mickel’s/ Bellway sites now under construction.

**2.4.7** The delivery of a dedicated social housing site at the Former Dalkeith High School site was a main driver in the increased number of completions recorded in Dalkeith for 2023/24 (figure 5). The delivery of affordable homes has also helped see a steady level of homes built with a further 2 affordable home sites fully built out for 2023/24 at Burnbrae Road and Cockpen Terrace in Bonnyrigg.

Figure 5: Comparison of units completed in recent years by settlement.

**2.4.8** A single demolition was completed in Midlothian in 2023/24, this was also the case for 2022/23. The carrying out of demolitions on a scale of this size, will not influence the housing supply in Midlothian. The recording of demolitions within HLAs is generally more suited towards other Scottish Councils where regeneration schemes and the re-use of brownfield land for housing are more prevalent. Demolitions will continue to be recorded and reported in future HLAs as part of the underlying HLA methodology.

# Part 3 – Property Market Summary

## 3 – Property Market Summary

**3.1.1** The inclusion of house price data within this section of the HLA can broaden the understanding of the housing supply in Midlothian detailed within the schedules in the following pages. The house price data is obtained from Registers of Scotland<sup>6</sup> (RoS) and a link is provided in section 4<sup>7</sup>. It is important to note that it refers to the prices of properties sold, as it is at this point that the transaction value becomes available. Values of the wider housing stock may differ from those that come on the market.

**3.1.2** Average selling prices of homes in Midlothian have risen steadily and substantially from around £174,000 in 2014/15 to over £290,000 in 2023/24, an increase of 67% over the past 10 years. For the period of 2023/24 there were 1,756 property transactions in Midlothian. This is a slightly lower figure compared to the previous two years with there being 1,941 in 2022/23 and 2,205 in 2021/22. The dip in the number of sales may be as a result of inflation, competition for homes driving up prices and the homes coming onto the market being bigger and more expensive than those for sale previously.

**3.1.3** Midlothian continues to have the 5<sup>th</sup> highest average house selling price in Scotland and has remained in this position since 2018/19, with neighbouring areas of Edinburgh and East Lothian also recorded as the most expensive. Table 10 and 11 below show the comparison between the five highest areas for average house selling price in 2023/24 compared to the lowest Council areas.

**Table 10: Top five most expensive Council areas by house selling price.**

Council Area	Average House Selling Price in 2023/24
City of Edinburgh	£333,576
East Renfrewshire	£328,803
East Lothian	£326,769
East Dunbartonshire	£299,596
Midlothian	£292,069

<sup>6</sup> Contains Registers of Scotland data © Crown copyright and database right 2022. This data is licensed under the Open Government Licence v3.0.

<sup>7</sup> Note that Registers of Scotland house price data is based on average sale prices. This means that prices can be skewed upwards by a small number of sales of particularly expensive properties. The latest figures are no longer limited to sales between £20,000 and £1,000,000 as recorded in previous HLAs.

Table 11: Top five least expensive Council areas by house selling price.

Council Area	Average House Selling Price in 2023/24
Inverclyde	£134,665
West Dunbartonshire	£148,128
East Ayrshire	£149,507
North Ayrshire	£151,035
Dundee City	£163,719

**3.1.5** Table 12 compares average selling prices for homes in Midlothian against the Scottish average. The table illustrates how the prices of homes have undoubtedly risen over the past 5 years. However when compared with Scotland's average it is clear Midlothian's average is rising at a quicker pace creating a larger gap between both. There are trends that could have reflected in the rise in house prices such as newer housing developments producing a higher portion of larger, family homes altering the housing stock availability and the increased demand for homes within the country as buyers are perhaps priced out of the Edinburgh market or seek better value close to, but outside the city.

Table 12: Average House Selling Price in recent years for Scotland compared to Midlothian.

Year	Scotland	Midlothian
2023/24	£221,086	£292,069 (+32%)
2022/23	£219327	£275048 (+25%)
2021/22	£205119	£256509 (+25%)
2020/21	£191842	£237390 (+24%)
2019/20	£183491	£226084 (+23%)

# Part 4 – Sources of Further Information

## 4 – Sources of Further Information

4.4.1 Further information on housing sites, applications and general housing matters in Midlothian can be found at the following links:

- A map of all sites in the current Audit - [Interactive Housing Land Audit map](#);
- A map of all housing sites in Midlothian that have been completed in the last few years [Housing Land Audit completed sites map](#);
- The Midlothian Council - [Planning Homepage](#);
- Search for planning application reference numbers at the Council's [Planning and Building Standards Portal](#) to view more details on proposed and current projects;
- Past and future meetings of the Council's [Planning Committee](#), where important applications and planning policy matters are decided;
- The function for searching [weekly lists](#) and [monthly lists](#) of planning applications that are received and decided by Midlothian Council;
- The [Midlothian Local Development Plan](#), which is the policy framework against which development proposals are judged;
- Midlothian's affordable housing plans for the next five years: [Strategic Housing Investment Plans](#); and
- [House price statistics](#) from Registers of Scotland.

The styling of this document is based on the Scottish Government's National Planning Framework 4. It is available [here](#) and was published under [this licence](#).

CONSTRAINED SITES

Site Reference	Site Name	Settlement	Area (ha)	Remaining Units	Comments
MLDP Additional Housing Development Opportunities*					
AHs2	Burghlee	Loanhead	10.51	175	<ul style="list-style-type: none"> <li>No application since 06/00181/OUT, which was withdrawn.</li> <li>Site constraints are due to access and landscaping.</li> <li>Feedback from Homes for Scotland raise concerns that there is scope for the site to be removed from the HLA given the noted constraints. Site is to be reviewed in upcoming site assessments and will be reviewed for HLA25.</li> </ul>
AHs3	Belwood Crescent	Penicuik	1.63	25	<ul style="list-style-type: none"> <li>No application.</li> </ul>
AHs4	Pomathorn Mill, by Penicuik	Villages/rural (west)	3.32	50	<ul style="list-style-type: none"> <li>No application.</li> <li>Site constraints are due to access and the prominence of the site.</li> <li>Feedback from Homes for Scotland raise concerns that there is scope for the site to be removed from the HLA given the noted constraints. Site is to be reviewed in upcoming site assessments and will be reviewed for HLA25.</li> </ul>
Other Sites					
Hs17	Pentland Plants	Roslin/Bilston	3.46	75	<ul style="list-style-type: none"> <li>Site is currently non-effective. A garden centre business operates from it and received consent to extend their premises in early 2022.</li> <li>Feedback from Homes for Scotland raise concerns that the site is a strong candidate for de-allocation due to its active employment use. Site is to be reviewed in upcoming site assessments and will be reviewed for HLA25.</li> </ul>
h55(Rem)	Seafield Moor Road Remainder	Roslin/Bilston	6.62	90	<ul style="list-style-type: none"> <li>This is what is left of the whole h55 site after excluding h55(AreaA) in the south. It has consent under 12/00814/PPP and there is also a pending application (17/00428/MSC) from Barratt.</li> <li>The PPP consent was originally for the whole of h55 and proposed 200 to 250 units. The northern portion is the smaller area and accounts for around 40% of the site. Therefore the site capacity of 90 is taken from 40% of the mid-point of the PPP unit number (225 * 0.4 = 90).</li> <li>This entry was moved to the Constrained Sites worksheet for HLA23 as high school and community facilities are planned here (22/00581/PAC).</li> <li>New planning application submitted for high school (24/00415/DPP) for the southern portion of the site.</li> </ul>
2018VR5	Former Howgate Restaurant	Villages/rural (west)	0.48	7	<ul style="list-style-type: none"> <li>Has consent under 18/00148/DPP for two conversions from the restaurant building and five new builds. Building warrant 20/00466/BNCO7 is for preparatory works on the two restaurant conversion units, which began in spring 2021. This means that the consent has been implemented and will not expire.</li> <li>Application 20/00274/LA was approved to modify the Section 75 agreement for developer's contributions so that the infrastructure payment is delayed, in order to increase the site's commercial viability.</li> <li>This site was for sale in April 2024 - <a href="https://www.novaloca.com/commercial-land/for-sale/penicuik/188996">https://www.novaloca.com/commercial-land/for-sale/penicuik/188996</a></li> </ul>
2018BL1	51B High Street	Bonnyrigg/Lasswade	0.30	23	<ul style="list-style-type: none"> <li>There have been applications for this site since 2008. Consent for 23 flats was originally granted under 08/00094/FUL. This was extended by 12/00667/DPP, which was then extended by 15/01006/DPP and again by 21/00241/DPP in September 2022.</li> <li>Site was advertised for sale in July 2024 - <a href="https://www.novaloca.com/commercial-property/for-sale/bonnyrigg/51b-high-street/223237">https://www.novaloca.com/commercial-property/for-sale/bonnyrigg/51b-high-street/223237</a>.</li> </ul>
Hs5	Thornbank North	Dalkeith	1.08	15	<ul style="list-style-type: none"> <li>A supermarket has been built under 20/00220/DPP on the half of this site closest to the road. The developer argued that the original capacity of 30 units would still be achievable on the remainder of the site, however its capacity in the Audit has been reduced by 50% until such time as a housebuilder proposes a design which demonstrates that it can still accommodate the full 30 units as indicated in the MLDP. The site area has been reduced by 50% too.</li> <li>This entry was moved to the Constrained Sites worksheet for HLA 2023 as there has been no activity in relation to it.</li> </ul>

CONSTRAINED SITES

2018DK2	Wester Cowden Farm	Dalkeith	1.82	25	<ul style="list-style-type: none"> <li>• Applications 16/00359/PPP (expired), 20/00468/MSC (pending), 20/00653/MSC (pending), 21/00083/MSC (pending) for here are from the LAR Housing Trust. Building warrant 21/00524/BDERMD (pending) is for 25 units. <ul style="list-style-type: none"> <li>o 20/00468/MSC is for 25 units and deals with the main conditions of the PPP consent such as layout and phasing.</li> <li>o 20/00653/MSC relates to conditions such as tree planting and broadband provision.</li> <li>o 21/00083/MSC relates to conditions such as art, archaeology and possible contamination.</li> </ul> </li> <li>• 16/00359/PPP is for a maximum of 25 units and application 18/00759/S42 previously sought to modify it to allow more, but was refused.</li> <li>• A visit in 2022 confirmed that the site had been cleared.</li> <li>• This was moved to the Constrained Sites worksheet for HLA23 following it not having progressed substantially for some time.</li> </ul>
2022DK1	Land Between 23A and 37 Newmills Road	Dalkeith	0.12	4	<ul style="list-style-type: none"> <li>• Consent was given for four townhouses at this site under 21/00612/DPP in July 2022.</li> <li>• The site was marketed in August 2022 and remains for sale as of July 2024. It was being used as part of the site compound for the neighbouring h12 social housing development in summer 2023.</li> </ul>
h40	Vogrie Road	Gorebridge	6.92	16	<ul style="list-style-type: none"> <li>• This site was originally developed by Mansell Homes, who are now part of Balfour Beatty.</li> <li>• There were originally three phases here that totalled 90 units – 39 in phase 1, 40 in phase 2 and 11 in phase 3. 17/00824/DPP later superseded those plans for phase 3 and replaced the original layout of 11 homes with 14 to increase the site capacity to 93.</li> <li>• The total capacity of this site is actually 93 units, but 77 have already been built. This consists of all of phase 1 and all of phase 2, with the exception of plots 50 and 51 from the latter. As no work has taken place on these units or phase 3 for some time, this site was moved into the Constrained Sites worksheet for HLA23.</li> </ul>
282	25 Newbattle Road	Mayfield/Newtongrange	0.44	8	<p>11/00131/DPP was granted in 2013. Work started under building warrant 16/00349/BDERSD and a notification of commencement of the development was submitted. However, no activity on site since meant it was marked as stalled for HLA19.</p>
h69	Whitehill House	Rosewell	0.22	18	<ul style="list-style-type: none"> <li>• This entry is linked with site h70 in the row below.</li> <li>• All 8 units from 15/00175/BDCOMD were completed in 2022/23. These are at the former stables buildings with a further 18 to come from the conversion of the main house itself.</li> <li>• The intermittent delivery of units here across both sites coupled with a possible change of plans for this development and feedback from Homes for Scotland have led to it being retained in the Constrained Sites worksheet. However, it is possible it will be moved into the Main Schedule in future audits depending on later activity.</li> </ul>
h70	The Grounds of Whitehill House	Rosewell	36.04	84	<ul style="list-style-type: none"> <li>• This entry is linked with site h69 in the row above.</li> <li>• Building warrant 12/00443/BWERD is for 10 units here which were completed at Cluster D. It was originally for 8 plots but was amended to add 2 more. No further development at the other clusters has taken place.</li> <li>• The intermittent delivery of units here across both sites coupled with a possible change of plans for this development and feedback from Homes for Scotland have led to it being retained in the Constrained Sites worksheet. However, it is possible it will be moved into the Main Schedule in future audits depending on later activity.</li> </ul>

CONSTRAINED SITES

2018VR1	Fordel	Villages/rural (east)	3.21	60	<ul style="list-style-type: none"> <li>• PPP consent here for 60 units.</li> <li>• There were plans for 78 units across the site in three phases, as shown on the phasing plan for 18/00344/MSC. 18/00343/MSC and 18/00344/MSC covered the first two and were for 28 and 16 units respectively. 19/00691/MSC repositioned some blocks covered by 18/00343/MSC but did not change the overall numbers.</li> <li>• 21/00189/MSC was submitted in 2021 and is still pending. It proposed a new phasing schedule involving the LAR Housing Trust developing 24 units as part of a new phase 1. Phase 2 would consist of 34 units at the north of the site. The final residential phase would see 20 units built as the affordable housing portion.</li> <li>• The site was marked as constrained for HLA22 as it hasn't delivered any units since MSC consent in November 2018, has drainage issues, complications with ownership and the delivery of affordable housing. This was the approach agreed with Homes for Scotland when reviewing HLA21. Nevertheless, the demolition of buildings on the site means that the development has commenced.</li> <li>• Applications for the site are 13/00780/PPP, 18/00343/MSC, 18/00344/MSC, 19/00691/MSC, 21/00189/MSC (pending). A new application was submitted in March 2023 and proposes 17 units across the north of the site (23/00213/MSC). It is in the Large Windfall Applications worksheet.</li> </ul>
Hs7*	Redheugh West (Phase 2)	Gorebridge	24.36	400	<ul style="list-style-type: none"> <li>• Application 21/00374/PPP does not specify a number of units and is yet to be determined.</li> <li>• There is a mistake in the LDP in table 3A (page 164). It lists 200 units as the capacity of Hs7 and 400 as the capacity of Hs7 SC. This is the wrong way round and HLA 2024 corrects this.</li> <li>• Moved to constrained sites for current Audit.</li> </ul>
2022DK1	Kippielaw Hatchery	Villages/rural (east)	0.62	5	<ul style="list-style-type: none"> <li>• Moved to constrained sites for current Audit, land appears to be under offer but no further activity.</li> <li>• Planning permission for 5 properties under consent 20/00349/DPP.</li> </ul>
Total				1080	

These are sites that have development uncertainties, so their potential contribution is not guaranteed during the plan period and they are therefore not relied upon as part of the required housing allocations. See MLDP policy STRAT4.

\* Indicates that this allocation is accompanied by a 'Safeguarded Site' for future development - see the 'Safeguarded Sites' pages/table for more details.

## SAFEGUARDED SITES

These are extensions to MLDP housing allocations that allow for further expansion of those sites in the medium to long term. They can be brought forward through the next development plan, if this is required and considered acceptable in place-making terms.

Site Reference	Site Name	Settlement	Area (ha)	Total Units	Affd. Units	Comments
Hs16 SC	Seafield Road, Safeguarded Capacity	Roslin/Bilston	11.54	200	50	<ul style="list-style-type: none"> <li>No development activity here at present.</li> <li>Work is ongoing on the regular/allocated portion of Hs16 but is not expected to be finished until after 2031, therefore Hs16 SC is unlikely to be released/required until this time. Programming estimates are therefore 40 units per year from 2031/32 onwards until complete.</li> </ul>
Hs7 SC	Redheugh West (Phase 2), Safeguarded Capacity	Gorebridge	17.45	200	50	<ul style="list-style-type: none"> <li>Hs7 SC is associated with Hs7 and h50 to the east. All are dependent on a bridge being constructed over the Borders Rail line for access.</li> <li>h50 has consent in principle and an application for consent in principle for Hs7 is pending.</li> <li>h50 would be built first, then Hs7, then Hs7 SC. Given this, and the large number of units to be built on each, construction on Hs7 SC would likely not start until many years after the last programming year in the Audit's Main Schedule unless other developers come on board, which there is no indication of currently. Given this, estimating programming for this site is not worthwhile at this stage.</li> <li>There is a mistake in the LDP in table 3A (page 164). It lists 200 units as the capacity of Hs7 and 400 as the capacity of Hs7 SC. This is the wrong way round and HLA 2024 corrects this.</li> </ul>
Hs0 SC	Cauldcoats, Safeguarded Capacity	Shawfair Area	10.48	200	50	<ul style="list-style-type: none"> <li>Application 14/00910/PPP is approved for this site and proposes development on both Hs0 and Hs0 SC. The consent specified that it applies only for phase one (Hs0) and this will mean that the safeguarded portion would be phase two.</li> <li>An application to increase the number of units on phase 1 from 350 to 430 was approved in 2022 and a further detailed application was lodged (22/00604/MSC) but has since been withdrawn.</li> <li>Based on the current layout and programming for Hs0, estimated programming for Hs0 SC is therefore 65 units per year starting in 2033/34 until complete.</li> </ul>
